AVLC utilises the online Core Skills Profile for Adults (ACER) assessment. Further information on this LLN assessment can be found at <https://www.acer.org/>

The outcome of this assessment is not to discriminate against the participant but to assist in them in successfully completing their course. In circumstances where LL&N levels do not meet the requirements of the course, the Student may be referred to a foundation course with an external provider.

6. Enrolment Process

A completed enrolment form with any supporting documentation is required by all students prior to commencement of course. All questions must be answered, and your signature should appear in the required locations on the form.

When your enrolment is process, you will be contacted by Student Services who will conduct a verification phone interview with you to confirm your details and ask a range of questions to confirm your suitability for the course. Once you have completed the online LLN assessment your enrolment will be finalised, and you will have allocated an AVLC identification number and enrolled into your qualification. You will be contacted via email with details of how to access the AVLC student portal including your login details.

9. College Academic Calendar and Intakes

The academic year for AVLC is controlled by the course you are undertaking. Our academic year runs for 40 weeks' face-to-face delivery with 12 weeks leave. Our courses run for 52 weeks and student intakes are 4 times a year at the start of each term. Students are only allowed to take breaks during the public holidays and nominated AVLC holidays.

10. Course Timetables

The Director of Studies will schedule course timetables at the beginning of the year and midyear. Timetables are subject to change. Timetables will be posted approximately 2 weeks prior to the commencement of the next term. New students will receive their timetable at orientation.

Online students will receive an individual tailored study plan outline the entire qualification including timeframes for unit completion and assessment submissions.

11. Training Delivery

All qualifications offered by AVLC are available to domestic students in two formats – institution based and online.

Institution based training consists of a mix of face to face lectures, individual and group activities and discussions.

Online based training allows the student to access their training anytime it is suitable to their individual schedules. It consists of online recorded video lectures, downloadable learning materials, quizzes, online assessments and program simulation-based assessments, forum discussions.

All AVLC students will be able to access their learning materials directly from AVLC's eLearning platform via a computer or tablet at any time from the commencement of a unit study period as defined on the course timetable and until that unit has been completed.

The eLearning platform will provide a range of additional materials for students such as extra handouts, copies of recorded lectures by variety of trainers who have previously taught the same unit and quizzes to challenge their knowledge during the learning.

Similarly, institution-based students will be able to access both their formative and summative assessment activities online, so they may refer to them outside of class time.

The eLearning system has in place restrictions on what an institution-based student can do within the system when outside of their timetable hours.

12. Conduct of Assessment

Assessment is conducted in accordance with the National Assessment Principles. Assessment is competency based against the standards outlined in the units of competency in the Training Package.

It includes:

- Assessment to determine your training needs
- Assessment during the training to judge how you are progressing
- Assessment of performance at end of the units of training
- Recognition of prior learning or recognition of current competency

Assessments are conducted in a classroom and involve the collection of sufficient evidence to demonstrate you are competent.

This may include:

- Measurement of products you have made or services you deliver
- Observation of processes you carry out
- Measurement of your knowledge and understanding
- Observation of the attitudes you demonstrate.

Note:

1. Assessment activities are customised by the addition of tasks that are authentic to the workplace or the industry
2. The learning requirements and assessment tasks are no more difficult than those required during the performance of the job.
3. Reasonable adjustment to assessment activities may be made when the requirements of the unit of competency are not affected e.g. oral questions and answers may replace written questions and answers. These adjustments are made in response to identified students' needs.

Assessment methods may involve you in:

- Demonstration of practical skills
- Written and/or oral questions
- Group discussions
- Oral presentations
- Case studies

At enrolment you will be given information on the course including the units of competency incorporated in the course and the assessment activities to be completed. You are encouraged to check the development of your skills and knowledge and indicate your readiness for assessment. The outcomes of assessment are C for *Competent* or NYC for *Not Yet Competent*. Those assessed as NYC (*Not Yet Competent*) can request a re-assessment.

During the course AVLC will maintain your individual assessment records, which you can review upon request.

13. Appeals and Re-assessment

Students may appeal an 'NYC' assessment for a unit of competency or single assessment task if they believe it is incorrect and if they have met attendance requirements for the unit and submitted the necessary assessments.

Re-assessment Criteria

Appeals against an assessment may be made under the following criteria.

1. Unit requirements and assessment procedures were not published or clearly communicated to the student or were changed without notification at the beginning of or during the unit.
2. The student claims a mistake has been made in calculating the result for this unit. An appeal under this criterion does NOT usually mean that a complete re-mark of a student's paper will be required. It is a detailed check to ensure that no part of a student's performance has been overlooked by the director of studies, student services officer or trainer
3. The student can verify they had compassionate leave approved which substantially affected their performance in the unit. Therefore, the student believes that the result does not fairly reflect their competence.

Note that AVLC policy does not allow any more than one full repeat of a unit.

Appeal Process

An appeal against an assessment is a **FOUR STAGE** procedure.

STAGE 1 In-class resubmission of some or all the Assessments for the Unit

If a student believes that the result awarded for a subject and displayed on their student progress report does not fairly reflect their actual competence the student may appeal against their assessment outcome. The appeal must be made within five working days of the assessment results being made available.

Appeal forms are available at student administration or can be downloaded from the AVLC website.

Steps

1. An 'Assessment Appeal and Re-Assessment Form' should be completed.
4. The completed form outlining the basis for their appeal should be taken the Director of Studies to discuss the reasons for the result.
5. If an agreement with the Director of Studies can be reached, they may change student's result at which point the appeal is complete.

6. If no agreement can be reached the student will be referred to the class teacher with the form and a signed 'Intervention form' outlining what work must be achieved. Any unfinished work or resubmission of unsatisfactory work must now be completed within 10 working days.
7. If the teacher is satisfied with the work the assessment result will be amended and the appeal is complete.
8. If the teacher is not satisfied the original assessment will stand and the student may return to the Director of Studies and move the appeal to Stage 2.

STAGE 2 Formal Re-assessment with an Alternative Assessor

1. To sit for a formal re-assessment, the student must return with both their appeal form signed by the class teacher to see the Director of Studies.
2. The Director of Studies will now complete an intervention strategy and counsel the student on their performance.
3. The student will be notified of the date for re-assessment and advised that there is a fee of \$100.00 for this stage.
4. The student must now present themselves on that date with their signed appeal and intervention forms to the nominated assessor who will provide an alternative assessment and a due date which will be no more than 10 working days later.
5. If the re-assessment is marked as competent the student record will be adjusted at which point the appeal is complete.
6. If the student does not attend on the re-assessment date without providing 24 hours' notification to the college or submits work that is still not yet competent the assessor will note this on their forms and return them to the Director of Studies.
7. The student will now report to the Director of Studies to have the appeal moved to Stage 3.

STAGE 3 Re-sit of Unit

1. Within seven days of being notified that their result remains not yet competent the student must report to the Director of Studies
2. Depending on the circumstances, the student may be allowed to complete a re-sit of the entire unit.
3. The Director of Studies will assign the student to a teacher and nominate a date on which the re-sit will commence and a date by which all assessments must be submitted.
4. A \$250 fee applies to re-sits.
5. If the re-sit and submission of work is completed within the dates provided and the work assessed as competent the student record will be adjusted at which point the appeal is complete.
6. If the assessment remains as not yet competent the appeal form will be signed and returned to the Director of Studies and student will be subject to a review of their entire term progress.

STAGE 4 Review of Student Progress

This review will be undertaken by the Director of Studies and may result in the student

- Being required to repeat the term if they are not competent (NYC) in three or more subjects

Important notes about the Appeals Process

1. Appeals against results must be lodged with the Director of Studies no later than five working days after the results have been released.
2. All appeals must be based on one or more of the criteria listed in the AVLC policies and procedures.

3. The student then has 10 working days to complete a Stage 1 re-submission
4. A further 10 working days can complete the Stage 2 re-assessment
5. A specific time will be nominated to complete a re-sit
6. All against assessment outcomes must be made on the prescribed form
7. Students will be unable to do re-assessments if they have failed three or more subjects within a three-month period. In this circumstance the student must repeat the term and pay for a full re-sit of all unit.

14. Intervention Strategies

If a student is **at risk** of not making satisfactory course progress, the Student Services Officer will establish a support program, which may include one or more of the following:

- Attending tutorials;
- Attending counselling
- Receiving assistance with personal issues which are influencing progress
- Receiving mentoring
- Being placed in a suitable alternative subject within a course or a suitable alternative course
- A combination of the above and a reduction in course load.

A record of the intervention measures implemented will be kept in the student's file and a copy will be supplied to the student.

15. Address and Contact Details

Students must provide residential addresses to the educational provider. The Change of Contact Details Form is available in reception. It is important to notify Student Services (admissions@avlc.edu.au) in person within seven days if you change your address, phone or email contact details. Alternatively, you may log into the student portal and adjust your details there.

16. Learner Support

The learning support strategies used by teachers at AVLC include:

- Pre-teaching technical terminology.

Students with learning difficulties beyond our areas of expertise are referred to external specialist agencies.

The Director of Studies and the Student Services Officer are available to discuss and support you with any concerns you may have during your studies with us. Feel free to talk to them about your adjustment to student life and study and any other problems that may affect your studies. They will advise or refer you appropriately.

17. Evaluation

As part of our continuous improvement procedures you will be asked to complete a Course Evaluation. This is your opportunity to provide us with feedback on the course, the teachers and assessors, the course administration, the training facilities, the training activities, resources and materials and the assessment procedures. Your comments enable us to make sure that your expectations are being met and to improve our services.

This complaint and appeals process will be at no cost to the student.

Complaints and appeals come in two different types – Academic and Non-Academic as defined below.

Compliant Procedure – Informal Process

Where it is possible all non-formal attempts shall be made in the first instance to resolve complaints. This may include advice, discussions, and general mediation in relation to the issue. Any member of AVLC staff can be involved in this informal process to assist in resolving issues but once a student has placed a formal complaint / appeal the following procedures outlined below must be followed.

General Complaints

Any student, potential student, or third party may submit a formal complaint to AVLC with the reasonable expectation that all complaints will be treated with integrity and privacy. A student wishing to submit a formal complaint and or appeal can do so by completing the 'Complaints and Appeals Form' and outline their case providing as many details as possible and supporting evidence if available. The 'Complaints and Appeals form' is available from reception at AVLC and online at www.avlc.edu.au.

The Director of Studies will then refer the matter to the appropriate staff to resolve or make a decision on the complaint within 10 working days and keep the complainant informed of any decisions or outcomes concluded, or processes in place to deal with the complaint.

Once a decision has been reached the Director of Studies will inform all parties involved of any decisions or outcomes that are concluded in writing within 20 working days. Within the notification of the outcome of the formal complaint the students shall also be notified that they have the right of appeal. To appeal a decision AVLC must receive, in writing, grounds of the appeal. Students are referred to the appeals procedure.

The CEO will ensure that AVLC will act immediately on any substantiated complaint. If the internal or any external complaint handling or appeal process results in a decision that supports the student, AVLC must immediately implement any decision and/or corrective and preventative action that is required and advise the student of the outcome.

Copies of all documentation, outcomes and further action required will be placed into the 'complaints and appeals register' by the Director of Studies and on the students file.

AVLC will always follow the principles of fairness and natural justice when dealing with all complaints

The reason the student feels the decision is unfair is to be clearly explained and help and support with this process can be gained from student services.

The Director of Studies shall then determine the validity of the appeal and organise a meeting with all parties involved in the matter and attempt to seek resolution where appropriate. The process for all formally lodged appeals will begin within 10 working days of the appeal being lodged.

After every critical incident, a meeting of the critical incident committee will be held to evaluate the critical incident report and the effectiveness of the management plan and to make modifications if required. If appropriate this process will incorporate feedback from all staff, students and local community representatives.

39. Foundation Skills

Foundation skills are those core or essential skills we need to engage successfully in work and life. The term 'Foundation Skills' is currently used to include the core skills defined in the Australian Core Skills Framework (ACSF) as well as the employability skills identified by employers as critical for effective performance in the workplace. The core skills of the ACSF include reading, writing, oral communication, numeracy and learning. 'Employability skills' now come under a new framework called Core Skills for Work (CSfW) and incorporate skills such as problem solving, teamwork and digital literacy.

Although foundation skills are viewed as those that underpin vocational learning and skills development, they should not be interpreted as only low-level or single-level skills. There is a growing recognition that foundation skills range from quite basic, entry-level skills to very specialised or high-level skills. People are constantly challenged when trying to understand new forms of communication and information as they take on different roles throughout their personal and working life.

40. Core Skills for Works

The Core Skills for Work Developmental Framework (CSfW) was developed by the Australian Government and describes performance in a set of non-technical skills, knowledge and understandings that underpin successful participation in work as an employee, or as someone who is self-employed, or as a volunteer.

The non-technical skills covered by the CSfW are relevant to all those undertaking work, not just those entering the workforce for the first time. The skills can continue to develop across the span of an individual's working life, depending on the industry, occupation and job role.

The CSfW was designed as a framework for conceptualising and articulating skills, knowledge and understandings that underpin work performance over time, and as a resource for guiding development of learning products that support the development of these skills, knowledge and understandings.

The Framework describes performance in ten skill areas, grouped under three skill clusters.

Cluster 1 - Navigate the World of Work

- Manage career and work life
- Work with roles, rights and protocols

Cluster 2 - Interact with others

- Communicate for work
- Connect and work with others
- Recognise and utilise diverse perspectives

Cluster 3 - Get the work done

- Plan and organise
- Make decisions
- Identify and solve problems
- Create and innovate
- Work in a digital world

Key Features of the CSfW

A Developmental Approach

The CSfW describes performance in each of the **ten Skill Areas** across **five stages of performance** – Novice, Advanced Beginner, Capable, Proficient and Expert.

There are characteristics of performance that distinguish each stage of performance. However, in general, as an individual progress from the novice stage through to later stages of development, their reliance upon explicit ‘rules’ governing action (e.g. instructions, processes, procedures, guidelines, models,) and systematic approaches to work tasks decreases, and their understanding of implicit ‘rules’ (e.g. conventions, expectations), use of judgement and more flexible, intuitive approaches increases. Progress through these stages is influenced by practical experience, reflection, motivation and support.

Context Dependency

The CSfW recognises the context dependency of skill development and performance. Not only does the context influence the specific skills required by an individual and stage of performance at which they required, it also influences the extent to which an individual can demonstrate the skills they possess.

This is most evident when an individual move into a new context (e.g. a new role, organisation or industry/field, or from study into paid employment). While they do not ‘lose’ their skills, their ability to apply them will be diminished for a period until they understand the new context.

Influencing Factors

The CSfW also acknowledges the context-dependency of work performance by identifying several factors that impact upon the development and demonstration of skills. These factors may relate to an individual, a workplace, or a combination of the two, or may be external factors (such as health issues or access to reliable transport) that have an impact on work performance. (See Figure 1

Describing Performance in the CSfW

Each skill area in the CSfW is broken down into several focus areas. These represent the priority aspects to be considered.

Performance features are used to describe the kinds of things someone knows, understands and can do at each stage of performance in each Focus Area. Although not intended to be treated as a finite list of capabilities, they capture the key characteristics that distinguish one Stage of Performance from another.

41. Information on Vocational Education & Training

What is VET?

VET stands for Vocational Education and Training – that is, study and/or practical training that develop the skills and knowledge that people need for employment.

What is the VET Sector?

The VET sector is the part of the education system that provides courses and training programs related to employment. The other components of the education system are the Colleges sector, the higher education sector and the adult and community education sector. There are connections between the qualifications in the different sectors, and it is possible for a person to have what they learned in one sector recognised in another sector.

The VET sector includes the TAFE (technical and further education) system and Private Colleges and institutions and can also include businesses that provide on-the-job training for their employees known as Enterprises. As well as the VET providers, it includes organisations such as those whose role is to ensure that the needs of industry and government are addressed, design courses or training programs, conduct assessments, or manage apprenticeships and traineeships.

Under National Recognition when a VET provider is registered and the qualifications it offers are based on Training Packages or accredited courses, the qualifications will be recognised anywhere in Australia by other RTO's.

VET Quality Framework

The VET Quality Framework is aimed at achieving greater national consistency in the way providers are registered and monitored and in how standards in the VET sector are enforced.

The VET Quality Framework comprises:

- **Standards for RTO's 2015**
- **Fit and Proper Person Requirements**
- **Financial Viability Risk Assessment Requirements**
- **Data Provision Requirements**
- **Australian Qualifications Framework**

While all the new standards and requirements under the VET Quality Framework are consistent with those that have previously existed, there are some small changes.

These new national arrangements for ASQA applicants/RTOs introduce some new terminology. For instance, the VET Quality Framework replaces references to the Australian Quality Training Framework (AQTF). The requirements also recognise ASQA as the body responsible for registration and compliance arrangements

Standards for RTO's 2015

The Standards for RTO's 2015 will be used by ASQA as an instrument in protecting the interests of all students undertaking vocational education and training in Australia.

The Standards for RTO's 2015 are now the standards guiding nationally consistent, high-quality training and assessment services in the vocational education and training system

Fit and Proper Person Requirements

The Fit and Proper Person Requirements are designed to ensure that key RTO personnel have the characteristics and principles necessary to ensure the delivery of high-quality services and outcomes for VET graduates.

These requirements are set to protect and inspire confidence in the VET system, and to safeguard Australia's reputation as a premier provider of VET (both locally and internationally).

Financial Viability Risk Assessment Requirements

The Financial Viability Risk Assessment Requirements aim to ensure that an applicant or RTO has the necessary financial resources to operate as an ongoing concern and deliver quality training and/or assessment services throughout the registration period.

Data Provision Requirements

The Data Provision Requirements outline the requirements for applicants and registered training organisations (RTOs) to capture and provide data to ASQA.

The data required relates to registration and performance information, including quality indicator data and information derived from the Australian Vocational Education and Training Management of Information Statistical Standard (AVETMISS).

The AVETMISS national data standard is the standard for VET providers operating in Australia that ensures consistent and accurate capture of VET information about students, their courses, units of activity and the qualifications reported. AVETMISS is the mechanism for national reporting in the VET system.

The Data Provision Requirements require relevant applicants and RTOs to show that they have adequate systems to capture and report on this data against the agreed quality indicators.

Australian Qualifications Framework

The Australian Qualifications Framework (AQF) is the national policy for regulated qualifications in Australian education and training. It incorporates the qualifications from each education and training sector into a single comprehensive national qualifications framework.

It was developed to meet the need for an overall system of qualifications to support reforms in vocational education and training. The AQF was introduced throughout Australia in January 1995.

- Rationalises college qualifications, industry qualifications, vocational and academic qualifications into a single system of twelve qualifications
- Supports flexible education and training pathways between Colleges, TAFE institutions, private training institutions and universities, training in the workplace and lifelong experience
- Recognises that the Colleges sector, the vocational education and training sector and the higher education sector each have different industry and institutional linkages

There are fourteen qualifications in the AQF:

Senior Secondary Certificate
of Education

Certificate I* Associate Degree

Certificate II* Bachelor's Degree

Certificate III* Graduate Certificate

Certificate IV* Graduate Diploma

Diploma* Master's Degree

Advanced Diploma* Doctoral Degree

The qualifications marked * are most commonly issued in the vocational education and training sector.

Australian Skills Quality Authority (ASQA)

The Australian Skills Quality Authority (ASQA) was established as the National VET Regulator in July 2011 under the following legislation:

- National Vocational Education & Training Regulator Act 2011
- National Vocational Education & Training (Consequential Amendments) Act 2011
- National Vocational Education & Training Regulator (Transitional Provisions) Act 2011

The Legislative Framework:

- Gives ASQA the power to audit an RTO at any time, and
- Gives ASQA the power to apply sanctions (including applying conditions to, suspending or cancelling a registration), and
- Allows providers to seek a review of ASQA decisions.

ASQA regulates Registered Training Providers according to the Standards for NVR Registered Training Organisations 2011 (SNRs), from January 2015 these will be superseded by the Standards for Registered Training Organisations (RTO's) 2015. All training organisation's applying to register, or RTOs applying to extend their Scope, will have their applications assessed against these standards. Non-compliance can incur a range of actions (including fines, suspension of registration and closure).

ASQA's regulatory approach is based on risk assessment. This analysis is informed by:

- The Risk Assessment Framework (s.190 of the National Vocational Education and Training Regulator Act 2011)
- Structured Risk Assessments of initial, renewal and Scope applications
- Advice from auditors on trends in non-compliance
- Feedback from industry regulators and associations
- Complaints data
- Information provided by Australian, State and Territory governments, and
- Analysis of data, including data on Client and employer outcomes, and visa data.

ASQA has a range of powers including the application of sanctions and prosecutions involving civil and criminal penalties, to effectively regulate training providers.

Types of Sanctions

ASQA may:

- Amend or shorten registration or accreditation
- Impose conditions on a registration or an accreditation

- Issue directions under the legislation for an organisation to take specific steps or refrain from doing certain things
- Suspend or cancel registration or accreditation
- Issue infringement notices as an alternative to prosecution
- Prosecute organisations that breach the legislation.

Registered Training Organisation is a Training Organisation (including TAFE colleges), which is registered by a State or Territory recognition authority to issue Australian Qualifications Framework qualifications and statements of attainment.

Only Registered Training Organisations (RTO's):

- Can issue qualifications and statements of attainment that are recognised nationally
- Can use the AQF and NRT logos in accordance with their relative guidelines
- Are listed on the national training database (TGA – training.gov.au)
- Can be approved to provide courses to overseas students studying in Australia and listed on the commonwealth register of institutions and courses for overseas students (CRICOS)
- Are eligible to tender for public funding for vocational education and training.

An organisation that is not registered may offer training or assessment services, but it cannot issue nationally recognised qualifications. However, it could form a partnership with an RTO, which could issue the qualifications on its behalf.

Scope of Registration refers to the products and services that a training organisation is registered to provide. RTO's provide:

- Either training and assessment products and services or assessment products and services only
- Products and services up to a specified qualification level that are based on training packages and/or accredited vocational education and training courses where there are no relevant training packages

VQF Compliance Audits

ASQA will audit a training organisation when it applies to ASQA to:

- Become registered as a training organisation
- Renew its registration
- Vary its scope of registration by adding qualifications and/or courses

ASQA will audit RTO's if it receives a complaint against them. ASQA will not process any application from a training organisation for registration or for variation to scope of registration if there are any complaints outstanding against that organisation.

ASQA may also initiate an audit at any time during an organisation's period of registration to monitor ongoing compliance with the VQF or as a strategic industry audit such as auditing all RTO's with TAE40110 on scope.

The purpose of a compliance audit is to confirm an organisation's claim that it has processes in operation that meets the requirements of the VQF. An organisation will be given reasonable opportunity to demonstrate compliance with the standards.

There are two types of audits used to evaluate compliance with the VQF: desk audits and site audits. ASQA conducts a desk audit to evaluate your organisation's application and the documents requested. A site audit is conducted to evaluate your organisation's processes in operation on its premises, and to confirm the details given to ASQA in the documents supporting your application. The scheduling of a site audit is at the discretion of ASQA.

Depending on the circumstances, there are two outcomes from a compliance audit:

- A recommendation made to ASQA, and/or
- Improvement requests made of the organisation

The compliance audit may be a full audit against the VQF or may focus on components of the VQF. The audit may include all or a sample of the qualifications and/or courses applied for and the sites where these will be delivered. ASQA will determine the scope of the compliance audit.

The training organisation will need to provide sufficient evidence to enable the auditors to form a view that the requirements of the VQF have been met. The auditors exercise their professional judgment when considering the relevance and significance of the evidence provided by your organisation against the standards.

At the end of the audit process the auditors will discuss their findings and give you a copy of the written audit report. If the standards of the VQF have been met, the report will contain a recommendation to ASQA.

Training Packages

The introduction of Training Packages is a key feature of the National Training Framework. Registered Training Organisations (RTO's) are expected to bring their existing courses into line with Training Packages, and new courses may only be accredited if they do not duplicate Training Package qualifications.

A Training Package encompasses Competency Standards that represent the full range of skills and knowledge required by an employee in the industry covered by the Training Package. Each Competency Standard is divided into discrete components called Competency Units.

Competency standards, as defined by industry, are packaged into combinations to form various qualifications aligned to the Australian Qualifications Framework (AQF). A Training Package also incorporates assessment guidelines designed to ensure that judgments about an individual's performance against the competency standards are valid, reliable and fair.

Competency standards, qualifications and assessment guidelines are the endorsed components of a Training Package. In addition, support materials may be provided to assist with the delivery of training and assessment. Learning strategies provide information on how training programs may be organised in workplaces and training institutions.

Assessment resources are evidence gathering tools and other information provided to assist RTO's and workplaces to develop consistent and effective approaches to conducting assessments in a wide range of contexts. Professional development materials provide the trainer with resources to support them in the implementation of the training package and the delivery of training.

The support materials may be developed by individual RTO's to suit their own customers. Alternatively, nationally recognised training materials (e.g. Learner's Guides, Assessor's Guides) are available from Industry Skills Councils.

Competency Based Training and Assessment

Competency Based Training and Assessment involves strategies designed to maximise the potential for a student to demonstrate that they can perform all workplace related tasks as outlined in the competency units. Consequently, the delivery and assessment strategies used should also maximise student ability to perform these tasks.

Delivery

Delivery should be designed to assist students with:

- Performing work related tasks
- Managing several different tasks within a job (task management)
- Responding to irregularities and breakdowns in routine (contingency management)
- Dealing with the responsibilities and expectations of the work environment (job/role environment skills) including interacting with others

Delivery in a competency environment should be varied and flexible and adopt various student focused strategies which optimise student involvement e.g. demonstrations, presentations, calculations, group work, research, fieldwork, guest lecturers etc.

Assessment

The main aim of assessment in a competency environment is to allow the student to demonstrate their ability to perform tasks that are related to realistic work practices. Assessment tasks should be varied and flexible and adopt strategies designed to maximise student performance e.g. demonstrations, presentations, calculations, group work, researched assignments, case studies, applied questions.

For further specific information on assessment in relation to the individual training package refer to the assessment guidelines document from that package.

Accessing the Student Portal

AVLC maintains and provides all students access to the student portal via the AVLC web site <http://www.avlc.edu.au>

This portal provides all students with information on current progress and course results, attendance levels, their current recorded details, timetable, payment information, course materials, AVLC documents including forms and provides a section for feedback and complaints from students.

The log into the student portal is available on the AVLC web site from the top of any page on the right-hand side as indicated by the red circle.

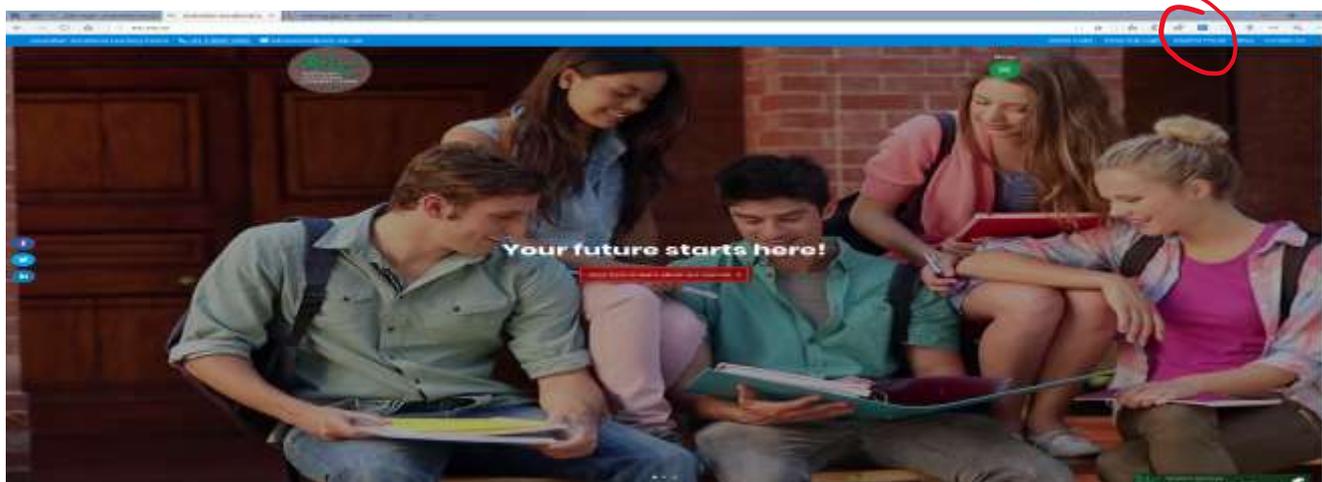

Figure 1 - AVLC Home Page

Click on "Student Portal" and this will take you to the main log in screen.

The main log in screen (as shown above) allows not only current AVLC students to login into RTO Manager but also staff and agents. From this screen you can click on 'Course Information' and this will provide you with a list of all AVLC courses available, course duration, and tuition fees.

The next tab for Download Document provides access to various publicly available AVLC documents including a copy of this student handbook.

The student application tab will take you to the section where potential students are able to complete an online application to become a student of AVLC or complete a previously commenced application.

The Agent registration tab provides an area for potential Education Agents to apply to represent AVLC. The Agent list tab provides a list of all current Education Agents who represent AVLC and their current contact details. *(Note: This section relates to International Students Only)*

To log into the student portal from the main log in screen this can be achieved through two different ways.

As displayed below a sanction message will be displayed and this message will explain the sanction in place. In case of the screen below a sanction is in place due to outstanding fees. This is shown with the ! to the left of the Fees owing.

Whilst a sanction is in place you are unable to enter the portal. Clicking on the X to clear the message will take you back to the main login screen. Once a sanction has been removed by Student Services you will be able to login as part normal.
